# A software created for port agencies

- › A port agency software to *reduce cost, grow revenue* and ensure *continuity*
- › *Modular* software; use only what you need

# Enqlare platform overview

## PRODUCTS FOR CARGO OWNERS

### Shipments

*Chartering Management software*  
Up-to-date information on all shipments  
Automations, insight and collaboration

### Laytime

*Laytime software*  
Powerful laytime calculator  
Automations (e.g. digital SOF)

## SOLUTIONS FOR PORT AGENTS

### Port Calls

*Port agency software*  
Update port activity from port calls  
Share data and documents

## PLATFORM FEATURES (SUPPORTED BY ALL PRODUCTS)

### *Reporting*

- > Powerful reporting and filters

### *Task management*

- > Assign, check, task overview.

### *Integrations*

- > API available to connect with existing systems

### *Messaging*

- > Chat through controlled channels

### *Document generation*

- > Customizable document templates

### *Automations*

- > Automate workflows such as task assignment

# Modular software; use only what you need

## Insight

### Whiteboard

All port call related activity  
in one space

### Tasks

Assign, check, overview

### Reporting

Powerful reporting and filters  
Flexible and customizable

### Vessel data

Particulars and AIS position

## Automation

### Document generation

Quickly create documents  
Customizable document templates

### Disbursements

Manage PDA & FDA  
Track invoices and payments

### Port log

Log port call activities with  
categorization

### Automations

Automate workflows

## Collaboration

### User & teams management

Configure users access and role  
Manage Teams

### API

API to connect with existing  
systems

### Cloud based

Reliable and secure  
Easy home access

### Sharing

Make data accessible and  
suitable for processing by your  
clients

### Chat & Email integration

Streamlined communication  
using messaging and  
integrated email

### Branding

Add your logo to documents and data

### Invite sub-agents

Invite and collaborate with  
sub-agents

# Terms & Evaluation project

## Terms

- > Port Calls – Professional software: \$20 per Port call
- > “Add-ons” available for AIS positions and vessel particulars (starting from \$149/month)
